## PERSONAL PROJECTS

---

### BOOKSTORE ([Visit](#))

*MongoDB, ExpressJS, ReactJS, NodeJS*

- Created a comprehensive Bookstore web app seamlessly managing books with a responsive design showcasing my full-stack skills. Users can effortlessly create, edit and delete posts enhancing the user experience.

### GROCERY BUD ([Visit](#))

*ReactJS*

- Created an elegant, browser-based grocery list app with a user-friendly interface for efficient item management. Users can store their grocery item list locally on the browser.

### MYSTORE ([Visit](#))

*ReactJS*

- Developed a sophisticated restaurant menu application, enhancing the dining experience with dynamic category filtering. Leveraged advanced web development skills to create an intuitive user interface and seamless navigation.

### 10+ PROJECTS ([Visit](#))

Explore my portfolio of over 10 front-end web development projects, crafted with industry-standard technologies. Visit my GitHub or my Portfolio website to see them in action.
